Abstract of proposed collection:

The Department's student internship programs provide a key source of potential prospects who have an interest in, and are qualified, to become future Department employees. Naturally, HR/REE wants to strengthen and maintain its connections to this group, fostering and mentoring a pool of prospects from which to obtain successful recruits.

In June 2008, HR/REE surveyed over 3,500 former interns who served from 2005 through spring 2008. The intern alumni were queried as to their motivation in seeking an

internship, whether or not they had pursued a career with either the Foreign Service or Civil Service, and what their recommendations would be for the best ways for the Department to maintain contact after the conclusion of their internships. Intern alumni endorse continued contact with Department representatives mainly through electronic means and website reminders of career opportunities.

In an effort to address these findings and provide viable solutions to improving student engagement prior to, during and following an internship, the Department developed an intern engagement strategy that will ultimately result in a measurable conversion of interns into Department hires for the Foreign or Civil Service. The foundation of this strategy is INTERNational Connections, a web-based career networking site for current and former interns as well as Department employees that collects pertinent information about them, their experiences and their career goals.

Methodology:

Users register online at <https://internconnect.careers.state.gov> and create a profile that includes: full name, program status, names of colleges attended, major/minor, where the user is from, current post, year graduated, career goals and interests, personal

interests, career path, bureau, job title, professional experience and languages the user can speak. The respondents are current and former interns, as well as Department employees.

Dated: February 29, 2016.
